

Final Term Syllabus of MGT101 Fall 2020

Dear Students,

Final term syllabus of MGT101 will include the following modules/chapters.

- Module-10: Fixed Assets and Depreciation Accounting
- Module-11: Control Accounts
- Module-12: Rectification of Errors
- Module-13: Final Account with Adjustments
- Module-14: Manufacturing Account
- Module-15: Accounting for Inventories
- Module-16: Accounting for Partnership Firms
- Module-17: Company Financial Statements
- Module-18: Statement of Cash Flows

Final term exam will consist of MCQs (1 mark), short and medium type subjective questions (numerical and theoretical of 3 and 5 marks) for the subject of MGT101. Number of questions and other necessary information will be shown in paper.

Please note that the MGT101 course is updated in current semester. You are advised to study the new course for the successful attempt of final term paper. Study material (Module 01- to Module 18) to support the delivered lectures is available in “download files” tab of LMS for student’s convenience. Recommended/Reference books have also been mentioned in “Books” tab of LMS which are easily available in the market. Lots of practical examples and problems are available in the study material available at LMS and recommended books mentioned in “Books” tab of LMS. Please watch the updated/new video lectures and thoroughly study the new course for good result. Also make practice as much as possible for numeric questions as the theory and numeric both are the important parts in accounting.

Wish you best of luck
